HOW THINGS HAVE CHANGED IN 10 YEARS...

HOW THINGS HAVE CHANGED IN 10 YEARS...

HOW THINGS HAVE CHANGED IN 10 YEARS...

1. Movies are rented or purchased online...

Blockbuster Filed For bankruptcy in 2010. Its downfall was largely blamed on Netflix, a rising star in the entertainment industry at the time. Nowadays the majority of movies that are watched each year are viewed from the comfort of your couch...

2. People Find out about the world on social media...

About 55% of American adults get their news from social media "often" or "sometimes," according to Pew Research Center. Social media topped print newspapers as the outlet providing news to people for the first time in 2018.

HOW THINGS HAVE CHANGED IN 10 YEARS...

3. People don't memorize anything...

Psychologists like to use the term "outsourcing our brain." When was the last time you actually memorized a phone number that wasn't your significant other's? Everything you need to know is a click away. In many cases you don't even need your phone anymore – Who needs wikipedia anymore? Echo or Siri will instantaneously provide you with the information you need...

HOW THINGS HAVE CHANGED IN 10 YEARS...

4. And they text more than they talk...

The fastest sector of growth in customer service is the switch from email to text. Young people, especially millennials, rarely talk on the phone anymore. A 2014 Gallup poll found that text messages outrank phone calls as the main means of communication for people under 50.

HOW THINGS HAVE CHANGED IN 10 YEARS...

5. Couples meet through apps

It looks like people trust technology more than other people when it comes to matters of the heart. Dating apps are the norm and there is no stigma attached. A recent Stanford study found that meeting online is now the most common way couples first connect....

HOW THINGS HAVE CHANGED IN 10 YEARS...

6. People are basically online junkies...

The average smartphone user checks Facebook 14 times a day. And that's just one social media platform. Between Facebook, Instagram, Pinterest, various messaging apps and games people are glued to their phones. In fact, people are expected to spend more time online watching videos, shopping, and browsing through Facebook than watching TV this year.

Corrie ten Boom once said the if the devil can't make you sin, he'll make you busy.

There's truth to that.

Both sin and busyness have the exact same effect - they cut off your own connection to God, to other people, and even to your own soul.
